

Energy and Biofield Report of Qi Bio Spiral Phone Chip By Dr J.R. Rogerson from Institute of Energy & Biofield Sciences

Scan 1 'Without' Phone Chip

Darker and less coherent energy & Biofield Without Chip

Scan 2 'With' Protective Phone Chip

Increased Vibrancy of Energy & Biofield With Qi Bio Spiral Phone Chip

Energy & Biofield Report of Qi Bio Spiral Phone Chip by Dr J.R. Rogerson

Date 23rd Sept 2009

Location

Pune, India

Subject

Leila Russell

There is an improvement in both the surrounding energy (circular fields around head) and body's biofield (waves on the body) when using **Qi Bio Spiral Protective Phone Chip**, see above EFI Scans 1 & 2. Notice the increased vibrancy, coherence, brightness and an enhanced transference of energy flow with larger and improved surrounding frequency fields, especially around the body in the surrounding energy field. This is associated with health benefits by a lightening and lifting of the energy, in turn concentrating the lower and more harmful EMF waves (electro-magnetic frequencies).

As you can see when using **Qi Bio Spiral Protective Phone Chip**, Scan 2, there is an expansion in size as well as brightening of the overall energy and biofield, as shown by P H O T O N e-fi PRO and **BISS** under clinical and standardized conditions.

The subject, Leila Russell, noted a distinct difference when she started using the protective chip; "Before I used the protective phone chip, especially when I used my phone for longer than an hour, I would get this hot and fuzzy feeling in my left ear, the ear I use most. Within 3 days of using I didn't notice it nearly as much heat or fuzziness, it's amazing."

Every effort was made to ensure fair and impartial results. Research conducted by Dr J.R. Rogerson at Institute of Energy & Biofield Sciences in Pune, India
